### Section 4. FIRST AID MEASURES

#### Necessary first-aid measures

Inhalation	Overexposure is most likely to occur dealing with large quantities and in an enclosed space with inadequate ventilation. Remove to fresh air. Allow patient to rest in a well-ventilated area. Seek medical attention.
Skin Contact	Get medical attention if irritation develops.
Eye Contact	Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation occurs.
Ingestion	Do not induce vomiting. Loosen tight clothing such as a collar, tie, belt or waistband. Seek medical attention.
<b>Most important symptoms / effects, both acute and delayed</b>	No information available.
<b>Note(s) to physician</b>	Treat symptomatically.

### Section 5. FIRE FIGHTING MEASURES

<b>Suitable extinguishing media</b>	Use dry chemical powder, water spray, fog or foam.
<b>Unsuitable extinguishing media</b>	High volume water jet
<b>Specific hazards arising from the chemical</b>	Irritating and highly toxic gases may be generated by thermal decomposition or combustion. Do not breathe fumes. Keep product and empty container away from sources of ignition.
<b>Hazardous combustion products</b>	Carbon oxides
<b>Special protective actions for fire-fighters</b>	Fire fighters should wear positive pressure self-contained breathing apparatus.
<b>Specific extinguishing methods</b>	Cool containers exposed to flame with water spray. Spray extinguishing media directly into base of fire.

### Section 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

Non-emergency personnel	Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment (i.e. goggles, gloves). Remove spilled material with absorbent material (i.e. sand, earth, diatomaceous earth, vermiculite) and place into appropriate closed container(s) for disposal.
Emergency responders	Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment. Deny entry to all unprotected individuals. Maximize ventilation (open doors and windows).
<b>Environmental precautions</b>	Keep spills and cleaning runoffs out of nearby sewers

**Your Wellness. Our Passion.**

and open bodies of water.

**Methods and materials for containment and cleaning up**

Dike and contain spill with inert material (e.g. sand or earth). Transfer soiled material to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Dispose of properly in accordance with local or national regulations. Wash all affected area and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse.

**Section 7. HANDLING AND STORAGE**

**Precautions for safe handling**

No special control measures required for normal handling. Normal room ventilation is expected to be adequate for routine handling. Follow good industrial practice as to housekeeping, personal hygiene and avoidance of prolonged or repeated contact with the skin or eyes. Keep away from fire, sparks and heated surfaces.

**Conditions for safe storage**

Keep away from heat and sources of ignition. Keep in a cool, well-ventilated place. Keep away from oxidizing agents. Keep out of reach of children. Keep container tightly closed. Store in suitable labeled containers at temperatures not exceeding 30°C.

**Materials to avoid**

No special restrictions on storage with other products.

**Section 8. EXPOSURE CONTROLS / PERSONAL PROTECTION**

**Control parameters**

If a component is disclosed in Section 3. (Composition/Information on Ingredients) but does not appear in the table below, an occupational exposure limit or recorded limit is not available for the component.

**Appropriate engineering controls**

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value. Ensure that eyewash stations and safety showers are proximal to the work-station location.

**Individual protection measures**

**Eye / face protection**

Not required under normal conditions of use. Wear OSHA approved safety glasses if eye contact is possible.

**Hand protection**

Not required for the normal use of this product. Wear gloves when working with large quantities. The glove material has to be impermeable and resistant to the product such as nitrile rubber, neoprene gloves, butyl rubber or natural rubber gloves.

**Skin / body protection**

Not required for the normal use of this product. Use protective clothing (lab coats, disposable coveralls,
