Section 4. FIRST AID MEASURES

Necessary first-aid measures

Inhalation If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.
Skin Contact If irritation occurs, discontinue use. Rinse irritated area with water. If irritation persists, get medical attention.
Eye Contact Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation occurs.
Ingestion Wash mouth with water. Remove dentures, if present. Do NOT induce vomiting. Seek medical attention immediately if symptoms occur.

Most important symptoms / effects, both acute and delayed No information available.

Note(s) to physician Treat symptomatically.

Section 5. FIRE FIGHTING MEASURES

Suitable extinguishing media Water spray. Alcohol-resistant foam. Carbon dioxide.

Unsuitable extinguishing media Solid water jet

Specific hazards arising from the chemical Fire Hazard.
Keep away from heat and sources of ignition. Flash back possible over considerable distance. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

Hazardous combustion products Carbon oxides

Your Wellness. Our Passion.

Special protective actions for fire-fighters
Specific extinguishing methods

Wear appropriate personal protective equipment, including self-containing breathing apparatus.

Use water spray to cool unopened containers. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes.

Section 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Non-emergency personnel

Wear appropriate Personal Protective Equipment (i.e. goggles, gloves.) before cleaning any spill or leaks. Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal.

Emergency responders

Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment. Deny entry to all unprotected personnel and unauthorized personnel. Maximize ventilation (open doors and windows).

Environmental precautions

Keep spills and runoffs out of nearby sewers and bodies of water.

Methods and materials for containment and cleaning up

Eliminate all sources of ignition. Ground all equipment, do not walk through spill. Take precautions to prevent entry into waterways, sewers, surface drainage systems, basements or confined areas. Stop leak if without risk. Absorb with dry earth or other non-combustible material. Collect material using non-sparking tools and place in a suitable, properly labeled container for recovery or disposal according to local regulations.

Section 7. HANDLING AND STORAGE

Precautions for safe handling

Keep away from heat and sources of ignition. Keep container tightly closed and upright when not in use. Use with adequate ventilation. Keep away from incompatibles. Avoid contact with eyes. Do not swallow.

Conditions for safe storage

Flammable materials should be stored in a separate safety storage cabinet or room. Keep away from heat and sources of ignition. Keep container tightly closed. Store in a well-ventilated place at temperatures not exceeding 30°C. Keep out of reach of children.

Materials to avoid
