* Unidentified ingredients are not considered hazardous under the Federal Hazard Communication Standard (28 CFR Sec. 1910.1200)

Section 4. FIRST AID MEASURES**Necessary first-aid measures**

Inhalation	Allow the victim to rest in well-ventilated area. Seek immediate medical attention.
Skin Contact	Not expected to be an irritant. Wash off oil with soap and water.
Eye Contact	Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes.

Your Wellness. Our Passion.

Ingestion	Do not induce vomiting. Seek medical attention.
Most important symptoms / effects, both acute and delayed	No information available.
Note(s) to physician	Treat symptomatically.

Section 5. FIRE FIGHTING MEASURES

Suitable extinguishing media	Wet chemical, Foam.
Unsuitable extinguishing media	Carbon dioxide, Water.
Specific hazards arising from the chemical	Fire Hazard. Keep away from heat and sources of ignition.
Hazardous combustion products	None
Special protective actions for fire-fighters	Wear appropriate personal protective equipment, including self-containing breathing apparatus.
Specific extinguishing methods	Apply the fine spray in slow circular movements, this allows the wet chemical agent to fall gently onto the surface of the fire and helps prevent hot oils or fats splashing the user or spreading the fire.

Section 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	
Non-emergency personnel	Wear appropriate personal Protective Equipment (i.e., goggles, gloves) before cleaning any spill or leaks. Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal.
Emergency responders	Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment. Deny entry to all unprotected personnel and unauthorized personnel. Maximize ventilation (open doors and windows).
Environmental precautions	Keep spills and runoffs out of nearby sewers and bodies of water.
Methods and materials for containment and cleaning up	Take precautions and runoffs out of nearby sewers, surface, drainage systems, basements or confined areas. Stop leak if without risk. Absorb with dry earth or other non-combustible material. Collect material using non-sparking tools and place in a suitable, properly labeled container for recovery or disposal according to local regulations.

Section 7. HANDLING AND STORAGE

Precautions for safe handling	If smoking occurs from oil usage, reduce or remove from heat. Spontaneous combustion (fire) may result from oil soaked materials such as rags, steel wool, paper and clothing. Place soaked materials, in a sealed, metal container to prevent this.
Conditions for safe storage	Keep tightly closed. Store in a dry and well-ventilated place at temperatures not exceeding 30°C.
